Geometry: position, direction, motion

Rec/ELG	Y1	Y2	Y3	Y4	Y5	Y6
Recognise, create & describe patterns. ELG		Order & arrange combinations of mathematical objects in patterns and sequences.				
	Describe position, directions & movement , including half, quarter and three-quarter turns.	Use mathematical vocabulary to describe position, direction & movement , including movement in a straight line and distinguishing between rotation as a turn & in terms of right angles for quarter, half and three-quarter turns (clockwise & anti-clockwise).				
				Describe positions on a 2D grid as coordinates in the first quadrant .		Describe positions on the full coordinate grid (all four quadrants).
				Describe movements between positions as translations of a given unit to the left/right and up/down.	Identify, describe & represent the position of a shape following a reflection or translation , using the appropriate language, & know that the shape has not changed.	Draw & translate simple shapes on the coordinate plane, & reflect them in the axes.
				Plot specified points & draw sides to complete a given polygon.		

Statistics

Rec/ELG	Y1	Y2	Y3	Y4	Y5	Y6
		Interpret & construct simple: - pictograms - tally charts - block diagrams - simple tables	Interpret & present data using: - bar charts - pictograms - tables	Interpret & present discrete data using appropriate graphical methods, incl: - bar charts - time graphs	Complete, read & interpret information in: - tables, incl timetables	Interpret & construct: - pie charts - line graphs and use to solve problems.
		Ask & answer simple questions by counting the number of objects in each category & sorting the categories by quantity. Ask & answer questions about totalling and compare categorical data.	Solve one-step & two-step questions such as 'How many more?' and 'How many fewer?' using information presented in scaled bar charts & pictograms & tables.	Solve comparison, sum & difference problems using information presented in bar charts, pictograms, tables & other graphs.	Solve comparison, sum & difference problems using information presented in a line graph.	Calculate & interpret the mean as an average.
